

Dave Prince Appointed as Director of Sales and Product Innovation

September 15, 2010 – Tymphany HK Ltd., has announced the hiring of David Prince as the company's Director of Sales and Product Innovation.

Prince returns to Tymphany with 20 years of experience in research and development, design, engineering, marketing, sales, and management. He has held positions in a number of industries ranging from consumer electronics to software development. David's experience includes a prior five year stint with Tymphany Corp. as a leader in client services, developing customer focused solutions in new products and concepts.

The hiring comes during a time in which Tymphany is embarked on new strategies as part of its efforts to address the needs of the global OEM-acoustics marketplace. "Dave joins us as part of the sales group, but (he) is also a phenomenal technical resource," said Tom Jacoby, Tymphany Chairman and CDO. "We are looking to Dave to inspire our customers and our internal development efforts with lots of innovative ideas."

David is an active member of the professional audio community; he currently serves on the board of ALMA, the International Loudspeaker Association, and is past-chair of the AES loudspeaker standards committee. David studied undergraduate physics at the University of Illinois and graduate acoustics at Penn State and the University of Florida.

About Tymphany

Tymphany is the world's premium supplier of innovative, high quality loudspeakers and audio systems. With over 80 years of audio design, development and manufacturing expertise, Tymphany is widely regarded as having the strongest portfolio of technology and design experience in the loudspeaker industry.

The new Hong Kong based Tymphany manufactures OEM/ODM loudspeakers for many of the world's leading audio brands and also develops and sells transducers under its own Vifa and Peerless brands. All Tymphany products are manufactured in a newly constructed, ISO-certified facility in Xinxu, China. Tymphany is a privately held corporation. More information about the company is available at www.tymphany.com.
